

Bad Boys Blue, From Heart To Heart

And there is a dream of love and freedom
I've been hearing for so long.
So many nights and so many lonely bars.
I never found a girl like you babe.
Assumed my life just went all wrong.
Only your love can take me to the stars.

{Chorus}

From heart to heart, heaven and hell.
Loving you is like a message forever.
And I know we'll never part
'Cause your feelings are tender and true.
Heart to heart, heaven and hell.
You send your feelings to my realm of darkness.
Heart to heart, don't break the spell.
The only thing I want is loving you.
(Heart to heart. Heart.)
(Heart to heart. Heart.)

Please come close and let me listen
To the words your heart can tell
I know you're the best, you've given me a life.
I want you. I want your body
And I want your soul as well.
'Cause you're my chance to make a dream survive

Chorus (repeat until fade)
