

# Bad Brains, Darling I Need You

Darling, darling, I love you  
Darling, darling, I need you  
Darling, darling, I love you  
And you've got feelings too  
You must be evolved within peace  
No one pushing in the ground  
Yes, God chose a part  
And whether it's sunshine or rain  
Come on my children, live in harmony

Darling, darling, I love you  
And darling, darling, I need you  
Darling, darling, I love you  
And you've got feelings too  
No more worry, it's not so tough  
Be strong and free  
And in time you'll see
