

Bad Brains, Stay Close To Me

IT wouldn't matter if you were my babe
it wouldn't matter if you didn't care
I only know I love you lady
I gotta have you always near
And you gotta
and I wanna
and you better
so we are together
and you better
You know I think you love him (I think you love him)
The way you squeeze him and hold him tight (hold him tight)
I'm better since I know my lady
And that's the reason I feel alright
And you gotta
and I wanna
and you better
so we are together
and you better
Stay close to me
don't let me go
For ever we'll be we'll be
so stay close to me
Keep on lying
you're lying to me
and you keep on lying
you're lying to me
Stay close to me, oh won't you stay please stay?
