

# Bad Cash Quartet, Big Day Coming

There's a big day coming for me  
Big day coming you see  
And it won't be long  
It won't be long  
There is something growing in me  
Something dying for me  
And there can't be two  
There can't be two

I hate everything I do  
To come on through  
I hate everything I do  
To come on through  
To come on through

There's a big day coming for me  
Big day coming you see  
And it won't be long  
It won't be long  
There is something growing in me  
Something dying for me  
And there can't be two  
There can't be two

I hate everything I do  
To come on through  
I hate everything I do  
To come on through

There's a big day coming for me  
Big day coming you see  
And it won't be long

I hate everything I do  
To come on through  
I hate everything I do  
To come on through  
I hate everything I do  
I hate everything I do  
To come on through
