

# Bad Company, Rock Of America

Bad Company

Dangerous Age

Rock Of America

She knocked down my money, she knocked down my fame

Just wanna feel I'm a part of the game

On the radio, on tv, it's like a heartbeat deep inside of me

Know what I want, know how to get, it's like the sound of a hot Corvette

Start it up, let it roll, come on baby, let's lose control

Ooh yeah, I wanna live it up, ooh yeah, don't wanna give it up, oh no

I wanna rock the rock of America, yeah baby rock the rock of America, ooh yeah

I hear the beat everywhere, smalltown streets, union squares

Every city's got that sound, it's in the open, not underground

Turn it up all the way, you can't escape it, it's here to stay

Sounds like thunder in my soul, come on babe, let's lose control

Ooh yeah, I wanna live it up, ooh yeah, don't wanna give it up now, no no

I wanna rock the rock of America, yeah baby rock the rock of America, ooh yeah

(Solo)

Ooh yeah, I wanna live it up, ooh yeah, don't wanna give it up now, no

I wanna rock the rock of America, yeah rock the rock of America

An' I've gotta rock the rock of America, you know what I want

Rock the rock of America, yeah
