

Bad Company, Run With The Pack

You never give me my money
You only give me your sympathy
'Cause I keep on running
There's no way to catch up with me
I'm leaving you don't make no mess
You won't even see me oh no or dust
I'm running with the pack
Running with the pack
I'm running with the pack
Never looking back
You try to keep me in cages
But baby you got to catch me first
You think your love is contagious
I'll do my best, you can do your worst
I'm leaving you now who can I trust
You won't even see me oh no or dust

I'm running with the pack, running with the pack
I'm running with the pack, never looking back, okay
I'm running with the pack, running with the pack
I'm running with the pack, never looking back, oh woah
Running with the pack, I'm running with the pack
I'm running with the pack, never looking back, ooh yeah
You can't hold me now, you can't hold me back
Goin' my own way, running with the pack
Never, never, never looking back
Keep on running, keep on running, yeah
Moving on, moving out
Running with the pack, running, running with the pack
Running with the pack, ooh yeah
