

Bad Company, Take This Town

Bad Company

Here Comes Trouble

Take This Town

If you want my love, you got it

A little something from above, tell me if you want it

But don't you leave me waiting, it don't matter where you are

There ain't nobody hiding, no matter how near or far you are

I'd pull the world apart, just to get a glimpse

One lie was all it took, I've missed you ever since, so get ready

Oooh, we're gonna take this town, oooh, we're gonna tear it down

And anywhere I go, baby, I see you

I gotta let you know, ooh darlin', just how much I need ya

This time I'm gonna find you, you gotta know how much I care

So take a look behind you, you'll see me everywhere, right there

I'm gonna do about anything to see your face again

And I'm gonna take this place apart, I'll find you in the end, so get ready

Oooh, we're gonna take this town, oooh, we're gonna tear it down, I said

Yeah, we're gonna take this town, baby I know, we're gonna tear it down

(Solo)

Oooh, we're gonna take this town, gonna tear it down, yeah, oh yeah - watch me

Oooh, we're gonna take this town, oooh, we're gonna tear it down

Yeah, we're gonna take this town, baby I know, we're gonna tear it down...
