

Bad English, Don't Walk Away

Wise men thinkin' of numbers, shaken not stirred
But I hang, hang on your every word
These days, I roll with the punches
Always your clown
Do you remember when?
We used to paint this town
Red, gold, green and blue
If you still believe in me and you
Don't walk away
I know I'll find an answer, if you stay
Don't walk away, there's nothin' in tomorrow
That wasn't there in yesterday, oh, no, no
All the heartache, too many nights
In a heartbreak hotel
Don't you give up
Love is a carousel
Put on your dancin' shoes
And we can paint this town
Red, gold, green and blue
If you still believe in me and you
Don't walk away
I know I'll find the answer, if you stay
Don't walk away, there's nothing in tomorrow
That wasn't there in yesterday
I'm sad that's all, this can be the end
It's not my fault, the rain on the roof
Reach out, reach out, I'm drownin' not wavin'
Reach out and touch before it's too late
To save our love, baby, don't you walk away, oh no
Don't walk away
I know I'll find an answer, if you stay
Don't walk away, there's nothin' in tomorrow
That wasn't there in yesterday
Don't walk away, don't walk away
No just stay, baby, don't walk away
Every cloud will have a silver linin'
Don't walk away
Baby, don't walk away
If you look hard enough you'll find love shinin'
Don't walk away, no, no, no, no, no
