

Bad English, Make Love Last

Aey, ooh

Now the sand is shiftin' through your life
The hands of time are twistin' through your days

A captured moment in your kiss
Like winter snow it's gone, melted away
There's a chapel on the edge of town

Baby, take my hand
Before they tear it down, yea
'Cause now we find nothing's what it seems

Let me hold you close
Through these drivin' dreams
'Cause the world is turnin' much too fast

And time won't wait
Gotta make love last
'Cause the fields are burnin'

And there's no returnin'
Till the future finds the past
We gotta make love last

Make love last, yea
Like a rose explodin' in the sun
A precious time to live before it's gone
Tears fall on the ocean from different skies

Inside your kiss, I wake and find the dawn
In temporary ways we give
But eternally our hearts will live

For now we find nothing's what it seems
You better run with me
Through these drivin' dreams

'Cause the highway's fadin' much too fast
And time won't wait
We gotta make love last

'Cause the fields are burnin'
And the season's turnin'
Till the future finds the past

This time we gotta make love last
Ooh, ooh
Ahh, ahh, ahh, ahh

Yea
Ahh, ahh
'Cause the world is turnin' much too fast
And time won't wait

We gotta make love last
'Cause the fields are burnin'
And the season's turnin'

Till the future finds the past
This time we're gonna make love last
We gotta make love last

'Cause the highway's fadin'
And the world is turnin'
Much too fast

We gotta make love last
Make love last
