

# Bad Paris, I Heart U (ft. Mimoza)

I love you /4x

You're lifting me up when my system is down  
Put me back on my feet, my one saving ground  
Limits given up all the boundaries I got open up for something new  
You can make me glow, breaking every status quo  
Giving us a room for two  
Just a perfect two  
There's no me without you  
Just a perfect two  
No me without you  
Cause I love you

I love you /8x

Went head over heels  
Split up into parts  
You're making me whole when I fall apart  
Just a perfect two  
There's no me without you  
Just a perfect two  
No me without you

I love you /8x

You're lifting me up when my system is down  
Put me back on my feet, my one saving ground

I love you /8x
