

Bad Religion, Modern Man

I'm with attitude
I've got nothing to say
I've got nothing to do
All of my neurons are functioning smoothly
Yet still I'm a cyborg just like you
I'm one big myoma that thinks
My planet supports only me
I've got this one problem will I live forever?
I've got just a short time to see
The modern man, evolutionary betrayer
The modern man, ecosystem destroyer
The modern man, destroy yourself in shame
The modern man, pathetic example of earth's organic heritage

Ohh, when I look back and think
When I ponder and ask why
I see my ancestors spend with careless abandon
Assuming eternal supply
The modern man, evolutionary betrayer
The modern man, ecosystem destroyer
The modern man, destroy yourself in shame
The modern man, pathetic example of earth's organic heritage
Just a sample of carbon based wastage
Just a fuckin' tragic epic of you and I
