

# Bad Ronald, All A Dream

You got it wrong  
Things aren't the same

Nothings ever what it seems to be  
Can't find out what it means to me  
Used to be it was all a dream  
I wanna see my face on the TV screen

All the same  
Feel the same  
Weigh by the same shit  
Four strange men on a mission to change shit  
Arrange shit  
Someone saw love in their hand  
Until we blow the fuck up and it all makes sense

All strapped in  
And I'm taking a fast ride  
One rock rolling  
And its causing a landslide

She called me a bad guy  
Fuck it I am a like  
So fucked up by I got me a plan  
Seek what I want but I can't get it though  
Outside beggin' on a motherfuckin' window

The lower that I can go from everyday life  
And I'm a theif  
Four a day dreaming at night

Take a drag up to the sky  
Girls dance throwing hands up high  
Get lost no allby  
It's all the same when I close my eyes

Nothings ever what it seems to be  
Can't find out what it means to me  
Used to be it was all a dream  
I wanna see my face on the TV screen

Nothings ever what it seems to be  
Can't find out what it means to me  
Used to be it was all a dream  
I wanna see my face on the TV screen

Yo I'm talking lots of shit just to talk  
Party down the street but I'm too drunk to walk  
Time to unwind  
Relax and chill  
Get off our stump  
Charge the bill  
Gravity bombs running thru my dance  
Guzzle a beer and I drop my pants  
Hit the ground on all fours  
Take a whiff of mine, I take a whiff of yours  
You down the fly  
You rip the grain  
Eyes wide shut  
Creating a scene  
No fuss, no fight  
It don't seem real, life's a dream I'm trying to cop a feel

Take a drag up to the sky

Girls dance throwing hands up high  
Get lost no allby  
It's all the same when I close my eyes

Nothings ever what it seems to be  
Can't find out what it means to me  
Used to be it was all a dream  
I wanna see my face on the TV screen

Nothings ever what it seems to be  
Can't find out what it means to me  
Used to be it was all a dream  
I wanna see my face on the TV screen

You got it wrong  
Things aren't the same  
Everyday we change  
We're unusally strange  
People complain  
We make daughters insane  
I forget who I am like I forgot her name

Good morning Kristine, I mean... Jean  
I meant Jen, oops sorry Laury  
Am I still wrong? Keep going  
How 'bout Carla, Carol, Jill?  
Gimmy one more chance and I will  
Figure out what they call this sexy lady  
I shoulda played it safe and called her baby  
But she don't mind, she thinks I'm just playin'  
It's like my whole lifes a dream, and then I'm saying

Nothings ever what it seems to be  
Can't find out what it means to me  
Used to be it was all a dream  
I wanna see my face on the TV screen

Nothings ever what it seems to be  
Can't find out what it means to me  
Used to be it was all a dream  
I wanna see my face on the TV screen
