

# Badfinger, In The Meantime/Some Other Time

I can remember  
Knowing you better some other time (low song)  
I can remember  
Being in love with a friend of mine

I've seen it before, now  
It's always the same  
Nothing can change any part  
I know what you're doin'  
I think it's a shame  
I'm gonna have to make a new start  
I can remember some other time

I could believe in, love has a reason for holdin' on (hold on)  
I can remember being together and feeling strong

But somehow we lost it, drifted apart  
It really took a piece of my heart  
I've done it before now  
It's always the same  
I'm gonna have to make a new start  
I can remember some other time

[guitar solo (Pete Ham)]

I've seen it before now  
It's always the same  
Nothing can change any part  
I know what you're doin'  
I think it's a shame  
I'm gonna have to make a new start  
I can remember some other time

I can remember some other time.
