## Badfinger, No More

Drunken days drunken nights Someone please turn out the light I can't face the mirror anymore Move along magics gone, someone else can sing my song, I can't lift my head up of the floor

N-n-n-n- no no no more N-n-n-n- no no no no more N-n-n-n- no no no no no no no more

Empty days sleepless nights Have I lost the will to fight Someone help me back onto the road Sinking fast time has past I can't make the story last Every little note is coming hard

N-n-n-n- no no no no more N-n-n-n- no no no no more N-n-n-n- no no no no no no no more

There's no use in trying
When you only end up crying
It's a fools game
It's no longer funny when youre doing it for money
It's a shame shame
no no more no more
No more

N-n-n-n- no no no more N-n-n-n- no no no no more N-n-n-n- no no no no no no no more
