

Badlands, Walking Attitude

Stone cold hot
Never saw the light of day
Said I'm dreaming night and day on the way
Tell me to lie and turn my way
Feels I can't go on

I know you know my name now
Remember babe my face now
Remember time shows no fear
Walking Attitude

Sticks and stones will break my bones
So many names that I've heard
My old lady stands out of turn

Well I know you know my name now
Remember babe this face now
Remember time shows no fear

In love say no
Oh
In love say no

Stand alone
Take a chance, you know her
Stand alone
Had alive, chances
Stand alone
Stay alive, chances
Stand alone
