

# Badloves, Powerful Karma

Badloves

Holy Roadside

Powerful Karma

So, you've finally found the time

Making molehills out of mountains

What's yours is surely mine

Let's not argue over nothing

It's all in your mind

Powerful karma

Has never failed

It's never been tried

Powerful karma

It's going to take over peace in my mind

So, a life is what you find

You find forgiveness somewhere

It's a lonely, lonely ride

By the time you find a reason

You're under the ground (way down)

Powerful karma

Has never failed

It's never been tried

Powerful karma

It's going to take over peace in my mind

And now the guns been fired

And it's time to be a hero (it's all in your mind)

Tell me, where did all the fear go? (it's all in your mind)

Will you trade your superstition

For a hole in the ground?

Powerful karma

Has never failed

It's never been tried

Powerful karma

It's going to take over peace in my mind
