

# Baez Joan, I'm With You

Baez Joan

Play Me Backwards

I'm With You

So it's time to set you free

Watch you sail away from me

Though I'll miss you when you do,

I'm with you

Turn your face into the wind

Let your greatest dreams begin

Take the high road, win or lose

I'm with you

I was there in the morning light

with a love that would last

And I'll be there on your darkest night

when the sun's long gone and your heart is sinking fast

When you stumble, when you fall

When they back you to the wall

After all the rest are through

I'm with you

So it's time to set you free

Watch you sail away from me

Though I'll miss you when you do,

I'm with you

Take the high road, win or lose

I'm with you
