

Bananafishbones, Robot 41

People walking down the streets
Their pale faces to the ground
And their boots in the streets
On a dust that is making no sound

And i don't wanna be a nosy guy
Excuse me mister could you please say
Why are we robotting every day
Robotting every day robotting everyday
Instead of
Having little fun today
Just a little fun today
Just a little asskicking
Carpet licking
Nobody else is
Tripping fun today

I'm living in a lack of time
Attract by the ones who lie
Cause i'm so full of shit that
I cannot even open an eye
And i don't wanna be the girlfriend
Of your boyfriend anyway
Cause there is so much to do
And there is nothing left to say
We've got that low fine attitude
That's something hammering my mood
So enee menee miney moe
Come dip your toes in

Just a little fun today
Just a little fun today
Just a little asskicking
Carpet licking
Nobody else is
Tripping fun today

And i sink down to the bottom of the lake
There there is no escape
And i cant say is the outside world is it just a fake
It is just a fake

I wana have fun today

Just a little fun today
Just a little fun today
Just a little asskicking
Carpet licking
Nobody else is
Tripping fun today
