

# Bananarama, Middle Of Nowhere

Travelling down that open road  
The sun beats down on me  
Mountains reach up to the sky  
It's where I want to be

It's just an ordinary day  
Going my own way  
Nothing around obscures my view  
And then I saw you

I saw you standing there  
Middle of nowhere  
I saw you standing there  
Middle of nowhere  
I saw you standing there  
Middle of nowhere  
I saw you standing there  
I know it's a place for me

You said that you were going my way  
But could you hit your ride  
You took one look and had to smile  
How could I pass you by

The way your hair falls on you face  
Ooh, you make my heart race  
But I was only passing through  
Untill I saw you

I saw you standing there  
Middle of nowhere  
I saw you standing there  
Middle of nowhere  
I saw you standing there  
Middle of nowhere  
I saw you standing there  
I know it's a place for me

I saw you standing there  
I know it's a place for me  
I saw you standing there  
I know it's a place for me

I saw you standing there  
Middle of nowhere  
I saw you standing there  
Middle of nowhere  
I saw you standing there  
Middle of nowhere  
I saw you standing there  
I know it's a place for me

I know it's a place for me  
I know it's a place for me
