

# Bananarama, Prove Your Love

Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion

Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion

How did it get to this  
I've fallen under your kiss  
Tell me what is on your mind  
Maybe tonight we'll find

I gotta know  
I gotta feel  
I gotta say hey  
This is for real

Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion

Some things were meant to be  
Like you were meant for me  
Why don't you make your move  
I'll leave it up to you

I gotta know  
I gotta feel  
I gotta say hey  
This is for real

Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion

Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion

I gotta know  
I gotta feel  
I gotta say hey  
This is for real

Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion

Prove your love  
Come on and make it happen  
Prove your love
