Bananarama, Prove Your Love

Prove your love Come on and make it happen Prove your love Show a little passion

Prove your love Come on and make it happen Prove your love Show a little passion

How did it get to this I've fallen under your kiss Tell me what is on your mind Maybe tonight we'll find

I gotta know I gotta feel I gotta say hey This is for real

Prove your love Come on and make it happen Prove your love Show a little passion

Some things were meant to be Like you were meant for me Why don't you make your move I'll leave it up to you

I gotta know I gotta feel I gotta say hey This is for real

Prove your love Come on and make it happen Prove your love Show a little passion

Prove your love Come on and make it happen Prove your love Show a little passion

I gotta know I gotta feel I gotta say hey This is for real

Prove your love Come on and make it happen Prove your love Show a little passion

Prove your love Come on and make it happen Prove your love Show a little passion
