Dab dadab dab dab dadab da dow

nobody knows, nobody loves
nobody feels like the way we do
all of my days, all of my nights
want you to know that my love is true
i can feel you everywhere
if you need me ill be there

i never wanna live my life without you
i only wanna have you by my side
i never wanna dream my dreams without you
we can fly so high
i never wanna live my life without you
i only wanna have you by my side
i never wanna dream my dreams without you
we can fly so high

dab dadab dab dab dadab da dow
dab dadab dab dab dadab da dow

we dont need words to understand
youre my world youre my fantasy
i will never let you go
dont you know i love you so

i never wanna live my life without you
i only wanna have you by my side
i never wanna dream my dreams without you
we can fly so high
i never wanna live my life without you
i only wanna have you by my side
i never wanna dream my dreams without you
we can fly so high
