

Banaroo, Only Love

I had a dream, does it mean
In your eyes are no lies
Believing in you and me
Theres too much blue missing you,
See the sign down the line
And fight for the victory
Only love can really break your heart
Hold me tight
For tonight
Angels sing when the heavens cry
Dont be a fool, break the rule
Take a chance for romance
And come to the promised land
I pray for you, that its true
Cause youre mine, take your time
To cherish and understand
Only love can really break your heart
Hold me tight
For tonight
Angels sing when the heavens cry
The day has gone, were alone
Dont know where, just be there
Together we fly away
I pray for you, that its true
Promised land, take my hand
We start in a brand new day
