

# Bang Camaro, The Hit

Some things, don't catch,  
On fire, the way that we do;  
Who knew one match ignites  
The way we light you.  
It's cool, I catch,  
The ice that surrounds you,  
And still, I cant rewrite,  
This temperature.  
Girl we could use a light right now,  
Find me in the dark somehow.

[Chorus:]

So as we look into your eyes,  
You see the truth,  
We won't tell you any night lies;  
So as you look into our eyes,  
And see right through;  
Please, don't leave.

Some things, don't crack,  
Until they're under pressure,  
We won't, attack until;  
You ask us to.

Some things, don't catch,  
On fire, the way that we do,  
Stand back, relax, don't fight;  
As we consume you.  
Girl we could use a light right now,  
Find me in the dark somehow.

[Repeat Chorus:]

Ahhhh (4x)

So as we look into your eyes,  
You see the truth,  
We won't tell you any night lies;  
So as you look into our eyes,  
And see right through;

[Repeat Chorus:]
