

Bang Gang, Everything's gone

You and I were coming down the road like before
You and I were coming down the road like before
All the same words
Feel so down
All the same words
Feel so down
You and I were coming down the road like before
You and I were coming down the road like before
All the same words
Feel so down
All the same words
Feel so down
I feel everything's gone
I feel everything's gone
You and I were coming down the road like before
You and I were coming down the road like before
All the same words
Feel so down
All the same words
Feel so down
I feel everything's gone
I feel everything's gone
I feel everything's gone
I feel everything's gone
