

Bang Gang, Follow

Can you feel the sun
Can you feel it burn
Shining alone
Minding it's own
Blinding my soul
It gets me higher

Now follow me always
Into the sky
Where we reach the stars
Now follow me slowly
Over the stars
Where we reach the sky
Where we reach the sky
Where we reach the sky

Can you feel the sun
Can you feel it burn
Shining alone
Minding it's own
Blinding my soul
It gets me higher

Now follow me always
Into the sky
Where we reach the stars
Now follow me slowly
Over the stars
Where we reach the sky
Where we reach the sky
Where we reach the sky
