

Bankrupt, Sidewinder

What's coming your way is just what it seems
She's going to blow you to smithereens
No radar can find her location
Cos her name is Annihilation
And she's gonna find you wherever you are
Your lifeline's short, much shorter than mine
Her deadly precision will leave you no time
Sidewinder, merciless heatseeker
Your body's glowing red to lead her
And she's gonna find you wherever you are
Problem solved, business done
From the Falkland shores to Vietnam
Sidewinder, merciless heatseeker
Your body's glowing red to lead her
And she's gonna find you wherever you are
