

BANKS, Crowded Places

Hey /12x

I wanna get you in my spaces
I wanna take you different places
I know the touring is romantic
I know you see me as a frantic girl
But I can give you what you want
I know you like the way I held my temper
When I gave you to the world /2x
I can be your heart to let go

Cuz I've been scared of crowded places
Come with me
I'll take you home
/2x

I know I messed with your head
It was just when I left you
When I was just blowing up when I said:
Remember when I loved you right before that tour?
You said, you didn't want to see me anymore
And then when I got home when I played that shallow melody
All you shit was gone
It was the only time I thought I'd made a mistake
And when I only want to hold you
I thought I wanted you to hold me

Cuz I've been scared of crowded places
Come with me
I'll take you home
/2x

It falls to death so talk with me
This life
What it's you and me?
Don't know, no!
Maybe that means we'll fall from grace
It'd be ok.
I'd have your face with me
You'll see

Cuz I've been scared of crowded places
Come with me
I'll take you home /4x
