

BANKS, Waiting Game

I'm thinking it over
The way you make me feel all sexy but it's causing me shame
I wanna lean on your shoulder
I wish I was in love but I don't wanna cause any pain
And if I'm feeling like I'm even, we've got nothing to gain

What if I never even see you cuz we're both on a stage
Don't tell me listen to your song because it isn't the same
I don't wanna say your love is a waiting game

Baby I'm thinking it over
What if the way we started made it something cursed from the start
What if it only gets colder
Would you still wrap me up and tell me that you think this was smart
Cuz lately I've been scared of even thinking 'bout where we are

What if I never even see you cuz we're both on a stage
Don't tell me listen to your song because it isn't the same
I don't wanna say your love is a waiting game

What if I never even see you cuz we're both on a stage
Don't tell me listen to your song because it isn't the same
I don't wanna say your love is a waiting game
