

# Banx & Ranx, Speaker (feat. Olivia Holt & ZieZie)

Yeah, Banx & Ranx

You wanna go find an empty room  
Somewhere that I can get to know you  
But you're in my space, so I don't want to  
It's getting late, but I won't leave soon

So, baby, come closer to my ear  
I can't, I can't hear  
We can talk about it over here  
What you, what you say?  
So, baby, come closer to my ear  
I can't, I can't hear you  
Yeah, you

Everybody is standing outside of the party  
But you and I are right next to the speaker  
We can barely speak here  
But the louder it is, the closer we get

Too many friends we don't need around  
Too many drinks that we can't turn down  
Plenty of space in this crowded house  
But here in mine's where I want you now

So, baby, come closer to my ear  
I can't, I can't hear  
We can talk about it over here  
What you, what you say?  
So, baby, come closer to my ear  
I can't, I can't hear you  
Yeah, you

Everybody is standing outside of the party  
But you and I are right next to the speaker  
We can barely speak here  
But the louder it is, the closer we get

Yeah, the rhythm we love  
Scream and we shout, it's on, yeah  
All in the club and we party  
It's four in the morning  
I see this girl from afar  
Follow my eyes and tell her come here  
Come, we go to a corner  
Come, baby, don't be scared

Everybody knows somebody  
So don't worry, mami, yeah  
Got our internal party  
And the music's gettin' louder  
And we're getting closer  
And she fall in love

Everybody is standing outside of the party  
But you and I are right next to the speaker  
We can barely speak here  
But the louder it is, the closer we get

But the louder it is, the closer we get
