

Barbara Fairchild, Woman's Hand

I'm gonna stay right here beside him cause a woman's place is with her man
So many times a man gets lonesome and that's when he needs a helping hand
A woman's hand though so soft and gentle can do so much to help her man
Just holding him each time he needs you the power of love is in a woman's hand
It's a woman's hand that makes a man go searching
It's a woman's hand that's make a man stay home
For he can't do either one without a woman
It's a woman's hand that leads him right or wrong
No he can't do either one...
