

# Barbara Fairchild, You Are Always There

I love to say your name even when you're not around  
I just love the way it sounds it's music to me  
I love to dream of you even when I'm not asleep  
Baby your love just keeps gettin' deeper in me  
Darlin' you are always there  
No matter where I am you're never far away from me  
And baby you are always there  
You're everywhere and you've become a part of me  
[ piano ]  
When I have to leave your side you know it doesn't worry me  
I've got your love inside of me each and every day  
When I have to face the world you know I'll feel so secure  
Cause baby I know for sure you're with me all the way  
Darlin' you are always there...
