Angel In Your Arms (1985)

Do you think Im such a fool to believe everything that you say is true?

That just goes to show that you really dont know

While you out beating the town do you think Im home just sitting around?

Waiting on you, now whos really the fool?

When I first found out, I heard all over

I felt so left out till I got to know her

So I tried to wait till you got over

And I became just like her so dont be surprised to find

That the angel in your arms this morning

Is gonna be the devil in some elses arms tonight

Yes the angel in your arms this morning

Is gonna be the devil in some elses arms tonight

Ill just slip around secretly you were tired of loving me

Whyd you keep holding on when love was already gone?

The times you said you werent feeling did you think I couldnt tell

Youve been with somebody else you were just kidding yourself

When I first found out, I heard all over

I felt so left out till I got to know her

So I tried to wait till you got over

And I became just like her so dont be surprised to find

That the angel in your arms this morning

Is gonna be the devil in some elses arms tonight

Yes the angel in your arms this morning

Is gonna be the devil in some elses arms tonight

That the angel in your arms this morning

Is gonna be the devil in some elses arms tonight

Yes the angel in your arms this morning

Is gonna be the devil in some elses arms tonight
