

Barbara Mandrell, Love Is Thin Ice

Love is thin ice
It's so easy to fall right in
Love is thin ice
So you better know how to swim
If you're not ready for fallin'
Then you better be careful when love starts callin'
Take my advice
Love is thin ice
You'd better watch your step it's hard to read the signs
And some times you have to lose before you can find
They say, "All in love is fair";
You got to give for someone to care
And it can be so nice but love is thin ice
Love is thin ice
It's so easy to fall right in
Love is thin ice
So you better know how to swim
If you're not ready for fallin'
Then you better be careful when love starts callin'
Take my advice
Love is thin ice
You'd better stick to higher ground if you don't want to cry
But if you don't take a chance you'll never learn how to fly
One day you're walkin' on air
Next thing you know your heart needs repair
But that's just the price 'cause love is thin ice
Love is thin ice
It's so easy to fall right in
Love is thin ice
So you better know how to swim
If you're not ready for fallin'
Then you better be careful when love starts callin'
Take my advice
Love is thin ice
You better take my advice
Love is thin ice
