Tonight My Baby's Coming Home (1972)

Last night he called from Dallas he was having a beer at the Crystal Palace

He said honey I won't be gone for long

I gotta make one more stop to pick up a ring in Little Rock

Then I gonna head this semi straight for home

Fourteen wheels a-whining four big headlights shining

Him and that semi's been away too long

Hope he don't get stopped for speeding cause I've got everything he a-needing

Waiting for him right here at home

He's got that big old engine singing, singing my favorite song

And I know he's heading my way rolling down the highway

Tonight my baby's coming home

For ten thousand miles I've missed him it's been a week since I've kissed him

And forty truck stops since I held him tight

A million chicks and he can get them they want to make love but he won't let them

The only thing he wants he'll get tonight

He's got that big old engine singing, singing my favorite song

And I know he's heading my way rolling down the highway

Tonight my baby's coming home

And I know he's heading my way rolling down the highway

Tonight my baby's coming home

And I know he's heading my way rolling down the highway

Tonight my baby's coming home
