

Barbra Streisand, I Can Do It

Life isn't always what it seems
You have to fight to hold your dreams
I'll not let mine slip out the window
I've got no time to see which way the wind blows
One day I'll wash my grubby face
Then shine it right on in the race to somewhere
I can do it
Yes I can now
I can do it
I know I can
Come big or small chance I'll take it there
I'll join the dance and sing my way
I can do it
Just you let me
I can do it
I know I can
I'll knock the whole world down on its ear
People can love I'll make 'em cheer
Think of all the boys
Think of all the girls
That life is passing by
I can do it
I've gotta do it
Just you watch me try!
