

Barclay James Harvest, The, Guitar Blues

Barclay James Harvest, The

Face To Face

Guitar Blues

Each night the same songs

Each night the pain

As i look for your face

In the shadows of the front row

Life came between us

Life on the road

We'd kiss and fly on

Like birds in the winter time

Every day it's another lonely ride

Was a time when you'd be here by my side

Oh, but the rain came down

Washed it all away

Now i stand alone with my guitar and play

When will i see you

How will i know?

My voice echoes on

As i wait by the telephone

Maybe you'll be there

After the show

But hope slowly fades

Like the lights in a stage show

Every day it's another lonely ride

Was a time when you'd be here by my side

Oh, but the rain came down

Washed it all away

Now i stand alone with my guitar and play
