

Barclay James Harvest, The, On The Wings Of Love

Barclay James Harvest, The

Face To Face

On The Wings Of Love

Close my eyes and dream the time away

Like the shadows in the night

Count the hours until the break of day

There's something missing from my life

Can you see me as you listen to the radio

Hope the message carries through

I can see you waiting, waiting on the other side

This song i sing is just for you

And i think it's gonna be all right

Sailing into the night

I'm gonna be flying high, higher than before

And it seems like an endless flight

Ooh, flying on the wings of love

Ooh, can you hear me talking down the line

Way out in the lonely night

And we both know

It's just a matter of time

Till we see the morning light

And i think it's gonna be all right

Sailing into the night

I'm gonna be flying high, higher than before

And it seems like an endless flight

Ooh, flying on the wings of love
