Barclay James Harvest, The, Once More

Barclay James Harvest, The
Caught In The Light
Once More
With these arms i'll hold you
Let my love enfold you
Please don't cry
Night and day forever
Rain, sea, surf, sand, clouds then sun will shine
Born in the spirit of love
You took flight
Soaring so high and so free
No-one can stop you
You'll always be heard
Our hearts know the truth

In pools of blue i found you Let my love surround you Gave you life From that day forever Rain, sea, surf, sand, clouds then sun will shine

Born in the spirit of love You took flight Soaring so high and so free No-one can stop you You'll always be heard Our hearts know the truth

Born in the spirit of love You took flight Soaring so high and so free No-one can stop you You'll always be heard They'll never kill the mockingbird She'll fly free
