

Bardot, Play It Like That

Bardot

Play It Like That

Play It Like That

Thanks to michael2001_@hotmail.com for these lyrics.

You say I'm tough - instead I say I'm strong
You say I'm much too cool - well I say that you're wrong
It turns you off - because I got it goin' on
I say you got to try to do better than that

Be original - individual
If you want it, just stay on it - we can play it like that
You and me - yes it could be
If you try it, you might like it can we play it
We can play it like that

Play it like that
Wont you play it, right play it right
Play it like that - I can take it like that
'Cos, however you want it I can give it to you back
If you try it you might like it - can we play it
We can play it like that

You say I'm never home - where should I be
I say that kind of life - it ain't down with me
So what you gonna do - what you gonna say
If you're not willing or able you can get out of my way

Be original - individual
If you want it, just stay on it - we can play it like that
You and me - yes it could be
If you try it, you might like it can we play it
We can play it like that

[CHORUS]

Come go with me and I'll show you how good it could be
Boy, you could be giving it to me
Every minute, every hour - endlessly.....

[CHORUS AND AD-LIB TO FADE]
