

# Barenaked Ladies, Humongous Tree

I'm gonna plant this seed, this little tiny seed  
And it is gonna grow into a giant tree  
A gigantic tree, a ginormous tree  
A humongous tree for all the world to see, yeah to see  
You've gotta love the trees, they even help us breathe  
They give us oxygen, they give us scenery  
When I see a healthy trunk it makes me want to jump  
But I feel the opposite when I see a stump, yeah a stump

Swingin' from the branches  
Help me plant this seed, this little tiny seed  
And let us watch it grow into a giant tree  
One gigantic tree here for you and me  
For our children's, children's, children's, children's, children to see
