

# Barenaked Ladies, Take It Outside

Oh, I - I watch it all go down  
Closed eyes - pretend noone's around  
So I - I chose to play the clown  
Or blow by and never make a sound

[CHORUS:]

Any other guy would wanna take it outside  
But I'd never even try - who wants to get their lights knocked out?  
Any other guy would wanna stir it up some,  
But I'd rather say goodbye

Turn 'round - say it to my face  
No sound - Everything's a race  
Lose ground - lost in your embrace  
Leave town - never leave a trace

[CHORUS]

Hardly know what anything's for  
Just for show, I'm slamming the door  
Even so, my heart and my head are an open book

[CHORUS x2]

I'd rather say goodbye
