

Barnes & Heatcliff, Neon Light (feat. Chris Madin)

Underneath a wild and cloudy sky
Disconnected from what's deep inside
I've become so numb and ignorant
Need to break away and make amends

Through the darkest night till the end of time
In the neon light
Through the darkest night, to the other side
In the neon light

In the neon light /4x

I've been lost and never found in despair
And noone ever really seems to care
Still I'm waiting for the perfect day
To leave behind those shades of grey

Through the darkest night, till the end of time
In the neon light
Through the darkest night, to the other side
In the neon light

In the neon light /8x
