

# Barrington Levy, Black Roses

Black roses in my garden  
Black, black roses in my garden  
To keep and care it you got to water it  
To keep and care it you got to water it  
I've been travelin' all over this world  
I've never seen no other black rose in no other garden  
So you see my garden is so special  
Black, black roses in my garden  
Black, black roses in my garden  
Black, black roses in my garden  
Black, black roses in my garden  
To keep and care it you got to water it  
Got to keep the earth so cool  
'Cause something special in my garden  
Black, black roses in my garden  
Black, black roses in my garden  
Black, black roses in my garden  
Black, black roses in my garden

Sure you got to water it, water it  
You got to do the best you can do  
'Cause no other garden is so special like this  
Black roses is in my garden  
Black, black roses in my garden  
Black, black roses in my garden  
Black, black roses in my garden  
Black, black roses in my garden  
Black roses, I've got to water it  
My garden is so nice  
Something special, special in my garden  
Black, black roses in my garden  
Sure, sure, I've got to stay  
And take good care of the roses  
Go to see, go to see that's so special to me  
My garden, my garden is so special  
Black, black roses blooming in my garden
