

# Barry Manilow, I Just Want To Be The One In Your

Some people shoot for the stars  
Dream upon dream  
They long to go far  
Chasing their rainbow so high  
Wish upon wish  
They'll reach for the sky  
But I got one little dream  
And baby that's all I want  
Girl it's up to you  
You can make my dreams come true

[Chorus:]

I just want to be the one in your life  
For ever, for always  
I just want to be the one in your life  
For ever , for always

I don't need cheers from the crowd  
To make me feel big  
To make me feel proud  
Darlin just a little touch of your hand  
Is all that I need  
To feel like a man  
And I keep hoping each day  
I'll woun't dream my life away  
Girl you hold the key  
To make my dream a reality

[Chorus 2x]
