

Barry Manilow, If I Should Love Again

Oh my love
You were the only one
Now you're gone and I'm alone
All my friends
They say what's done is done
I pretend
But deep inside I know

[Chorus:]

If I should love again
If I find someone new
It would be make-believe
For in my heart
It would be you

And though I hold her close
And want her now and then
I'll still be loving you
If I should love again
All day long
I keep remembering
All the night
I think of you
All my life
You'll be the song I sing
I'll get by
But this I swear is true

[Chorus]

If I should love again
