Barry Manilow, We Still Have Time

Before the laughter ended You were a part of me Why did I ever let the distance grow When there is still so much of you I need to know But we still have time Time to try Yes, we still have time Before the chance Passes by

We've got to take it And maybe stumble and fall But we still have time To have it all

I don't have all the answers I don't know where we'd start I don't know how We'd try to find a way I only know That now I need to hear you say That we still have time Time to try Yes, we still have time Before the chance Passes by

We've got to take it And mabye stumble and fall But we still have time To have it all

We've got to take it And maybe stumble and fall But we still have time We all have time Yes, we still have time To have it all
