

Barry Manilow, Who Needs To Dream?

You were in my dreams
Always in my dreams
That was long before
I ever saw you standing there
When I felt afraid
Of the choice I made
I would close my eyes
And hope my dreams would comfort me
But now I'm free

Who needs to dream when there is you?
Who needs a heaven to look forward to?
For my whole life through
Who needs to dream?
You're my dream come true

In my fantasy
You believed in me
And as long as you were there
Then I believed in me
Now suddenly

Who needs to dream when there is you?
Who needs a heaven to look forward to?
For my whole life through
Who needs to dream?
You're my dream come true

Now you are my dream
You are my only dream
I'll hold you in my heart forever
Who needs to dream?
Who needs to dream?
When I see you there
Then I see my every dream come true

Who needs to dream when there is you?
Who needs a heaven?
For my whole life through
Who needs to dream?
You're my dream come true
Every dream
All come true
My dream come true!
