

Barry Manilow, You Could Show Me How

I don't know how to begin
To let myself let you in
But you
Maybe you could show me
There's so much more I would say
If someone showed me the way
Like you
Maybe you could show me
I've been so used to getting what I want
Doing what I want to do

I've always been the one who took the lead
Now I find I need
I need to follow you
So won't you help me come through
My future's long overdue
It's time
I think I'm ready now
And you could show me how
