

# Bartek Grzanek, Beyond

I used to like your voice  
I've got it on the tape  
It still makes me believe  
There was no escape

I used to like your smile  
Got it in the frame  
I love the way you make me laugh  
The way you made it end

Get me out of here  
I know that you can  
Cut me from the past  
And unlock the chain  
I need you to steer  
Steer me out of here  
Straight to the light  
And beyond my fear

I think I had a choice  
And now I'd do the same  
I'm still trying to believe  
It was the only way

And all I hear is noise  
All I feel is pain  
I lost myself in you  
Lost myself again

Get me out of here  
I know that you can  
Cut me from the past  
And unlock the chain  
I need you to steer  
Steer me out of here  
Straight to the light  
And beyond my fear

All the things I've done  
All mistakes I made  
Lead me into this place  
Can't go back again

Get me out of here  
I know that you can  
Cut me from the past  
And unlock the chain  
I need you to steer  
Steer me out of here  
Straight to the light  
And beyond my fear
